

### Children are healthy, (engaged), learning, and (exploring).

Candidate Indicator	Source	Considerations
% of children, ages 5 -14, who were physically active for at least 60 minutes for the past 7 days.	CDPHE - CO Health Indicators	
% of kindergarteners entering school meeting or exceeding school readiness measures	DPS - TS Gold Data	
% of 3rd graders meeting or exceeding expectations in English Language Arts.	CDE - DPS	
% of children who do not always know when or where they will get their next meal	Blueprint to End Hunger	

### Caregivers, adults and families are engaged, interactive and responsive

Candidate Indicator	Source	Considerations
Frequency of family meals	TBD	protective factor
% of children who were read to by a family member at least 7 times in the last week.	Child Trends - TBD	protective factor
% of families who engaged child in any kind of outing (park, library, zoo, church, family gathering, shopping, restaurant) x times in the past week.	CDPHE- Child Health Survey	protective factor; typically asked of families with older children, consider if/how changes with younger children
% of families reporting a professional (child care, teacher, health care, home visitor...) is sensitive to family values and customs.	TBD	
% of families reporting a professional (child care, teacher, health care, home visitor...) spent enough time with them.	TBD	

% of children who have a trusted, caring adult in their life.		protective factor; research supported
---	--	---------------------------------------

### People and places that impact children are safe, supportive and connected.

Candidate Indicator	Source	Considerations
% of families reporting they feel their child is safe in their community or neighborhood (and/or school or child care center).	CDPHE- Child Health Survey	
% who trust all or most of their neighbors.	Civic Health Indicators, Mesa County example	see social capital indicator set and example from Mesa Co
% who are comfortable asking for support from: 1) a family member, 2) friends, 3) community organization	TBD, Mesa County example	see social capital indicator set and example from Mesa Co
<b>Data Development:</b> Continue to study and learn about research-based social capital index and how/why Mesa County selected survey questions. And how social capital relates to this result.		

### The East Denver \* community prioritizes children and families.

Candidate Indicator	Source	Considerations
% of East Denver organizations or agencies that adopt family friendly policies.	TBD	critical part of CDPHE grant; will need to describe and define what EU means by "family friendly policy"
% in East Denver who earn a living wage. And/Or amount of well paying jobs in East Denver	TBD	leading indicator in terms if family can afford to live in East Denver

**Data Development:** 1) think through potential indicator around policies in East Denver and if/how they have applied a family and child lens; is there an indicator around the # of policy or decision making champions who apply a child/family lens to their actions 2) think more on what EU really wants to know and monitor around displacement, housing affordability, housing mobility, etc.

NOTES:

1) need to be able to disaggregate data via a variety of factors (e.g. length of time in East Denver, socioeconomics, age, race and ethnicity....)

2) apply an equity lens to data and the story behind the data; story must include historical and demographic changes in East Denver

3) EU's data dashboard is a work in progress; we'll continue to refine it over time

4) don't let the perfect be the enemy of the good; let's start with the good and keep learning
