Overview

- Review Connection Indicator Results
- Review Collaboration Indicator Results
- Review results from Community Learning Model survey

Healthy Jeffco Alliance

- We believe community is rooted in **connection** and **collaboration** and we ALL have value to contribute.
- We embody a culture of **humility**, and constantly strive to be more **inclusive** in who we are and how we operate.
- We facilitate **conversation**, **connection**, and **collaboration** among our community to make health and opportunity possible for all.

Connection

People and organizations are well connected in caring, supportive communities.

A culture of connection is one that nurtures safety, trust, belonging, collaboration, personal relationships, listening and empathy.

Connection: Partner Activities

Community Learning Model Rubric Results

Community Learning Model (CLM)

- **Results** – Clear articulation of the results sought is at the center of the model. The desired results and ongoing re-assessment drive the community learning process.
- **Learn** – Set benchmarks and use indicators to assess the impact and quality of actions; learn from experiences and translate that information into more effective actions.
- **Include** – Ensure the various people, perspectives and systems involved in the work are engaged in the process.
- **Dialogue** – Create a high-quality conversation that clarifies values, surfaces tensions and taps into creativity, leading to concrete plans that achieve results.
- **Act** – Ensure planning leads to action, both within planning processes and at each stage of implementation.

CLM Rubric 2020 and 2022 Results

	Average median score 2020	Average median score 2022	
Results – Clear articulation of the results sought is at the center of the model. The desired results and ongoing re-assessment drive the community learning process.	2	2.5	
Learn – Set benchmarks and use indicators to assess the impact and quality of actions; learn from experiences and translate that information into more effective actions.	3.33	3	
Include – Ensure the various people, perspectives and systems involved in the work are engaged in the process.	2.75	3	
Dialogue – Create a high-quality conversation that clarifies values, surfaces tensions and taps into creativity, leading to concrete plans that achieve results.	2.76	3.33	
Act – Ensure planning leads to action, both within planning processes and at each stage of implementation.	2.875	3	
Culture of Collaboration	2.7	3	

CLM Rubric Specific areas of change

	Average median score 2020	Average median score 2022
Results – Common vision	2	3
Learn – Accessing and Using Effective Practices	3	2
Include – Inclusive processes	2	3
Dialogue: Depth of Analysis	2	3
Dialogue: Conflict Management	3	4
Act: Planning	2.5	3
Culture of Collaboration: Structures of Routines	2.5	4

Summary

- Frequency of connection between neighbors show signs of improvement though it is difficult to compare over time.
- Frequency of connection between family and friends may have reduced, though it is difficult to compare over time.
- Indicators of collaboration across Jefferson County are improving across all areas.
- Measures of collaboration within the Steering Committee of the Healthy Jeffco Alliance have improved in 4 out of 5 areas.
